

SAIDAL GROUP'S QUALITY AND COMMITMENT POLICY

The SAIDAL group, a national company of generic pharmaceuticals production who defines itself like as a major actor of the public sector and the medicinal product market, the company is committed to satisfy the requirements of the regulations applicable to the pharmaceutical industry and its stakeholders, including partners and customers.

To honor our commitments, we invite all our employees to embrace the company's values, which include **commitment, rigor, and honesty**, and combine all their efforts to make an active contribution to establish a quality management system focused on:

- > **Guaranteeing the quality, efficacy, and safety** of our medicines ;
- > **Maintaining the compliance** of our infrastructures (buildings, equipments, information systems) ;
- > **Increasing local market share and expanding** in the international market ;
- > **Continuously satisfying the needs of our stakeholders by understanding their present and future requirements and enhancing the company's brand image** ;
- > **Developing strong, complementary and mutually beneficial relationships** with our partners in a win-win collaboration ;
- > **Developing the skills** of the Group's employees, while providing them with safe and healthy working conditions, and protecting them from professional risks ;
- > **Respecting environmental protection** requirements ;

In a highly competitive context, we commit to meeting regulatory requirements, continuously improving the Quality Management System, and implementing the development plan in line with strategic objectives to promote the SAIDAL Group's brand image, enable its development, and ensure its sustainability.
